

About Madison Consulting Group

Established in 1995, Madison Consulting Group is a consultancy that offers broad-based, on-demand resourcing services to the financial services industry.

We operate in three primary practice areas:

Business and Operations Consulting

helping clients with strategy execution, market and competitive analyses, process re-engineering and operational risk management

Anti-Money Laundering & Compliance Consulting

assisting clients with compliance management structures, regulatory action responses and regulatory examination preparation

Resourcing Services

providing on-demand resources for project implementation, temporary operational needs and supplemental compliance research and documentation

HEDGE FUND RISK SERVICES

Prepare
Manage
Strengthen
Grow

Our Services

Operational Risk Evaluation

Independent and confidential assessment of your firm's Operational Risk focusing on seven key areas

- Operational Processes and Controls
- Counterparty Management
- Outsourced Service Provider Oversight
- Risk Management
- Documentation and Procedures
- Disaster Recovery / Business Continuity
- Compliance and Regulatory

Due Diligence Response Platform

- Proprietary template based on industry-standard questionnaires (DDQ's) overlaid with **Madison's industry experience**
- Flexible platform** designed to **minimize time** that is completely **customizable** for your business

Executive Resource Support

- Utilize **interim, executive resources** for financial or operational needs
- Manage **start-up** and/or **third-party** risk with **temporary seasoned resources** to ensure smooth integration
- Effectively communicate your **unique franchise value** with the help of an experienced marketer
- Increase operating efficiency** through creation of standard procedural documentation

Why Focus on Risk?

Rapidly changing environment

High media profile collapses and fraud cases increase the likelihood that hedge funds will be subject to **increased scrutiny by regulators and investors**

Exposure to new risks

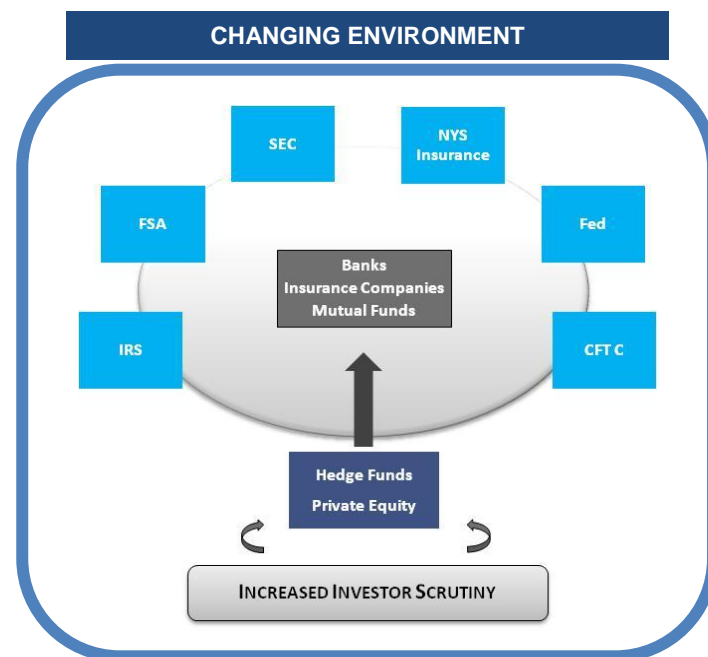

With the changing banking industry model, **managing exposure risk to third-party providers** (e.g., prime brokers, administrators and counterparties) becomes critical. Our **executive resources** help ensure a smooth, risk-free integration at **any stage** of your process on an **as-needed basis**

Consolidated best practices for a complete view

We incorporate **all existing best global practices** in the hedge fund industry in addition to our **considerable expertise**

Flexible, modular approach works with your schedule

We provide **time and cost-efficient** recommendations that are practical and achievable with most assignments complete in **4 weeks or less**

Strengthening business practices is key to franchise preservation

Being **well prepared** ensures you have the **strong business discipline** that can attract investors from different sources – from individuals to institutions, endowments and pension plans
